SUMMARY

I'm a detail-oriented software engineer with a strong interest in AI and a passion for building meaningful, user-focused applications. I enjoy solving problems, learning new technologies, and improving the way things work. Over time, I've worked on both front-end and back-end development, turning ideas into fully functional web solutions.

EXPERIENCE

Software Development Trainee

100Devs April 2023 - July 2025, Remote • Reviewed and optimised code to improve performance and efficiency

- Worked on real-world projects involving CRUD operations, database design, and responsive UI

- Followed best practices for clean code, version control (Git), and debugging

- Confident problem-solving skills, resolving issues with efficient and long-term solutions

PROJECT

React Jobs

ReactJS • Vite • MongoDB • react-job-lyart.vercel.app/

- Built a job listing platform focused on React roles, allowing users to browse and explore curated job opportunities

- Integrated REST APIs to dynamically display job listings with up-to-date information

- Implemented search and filtering features to help users find relevant job listings efficiently

- Developed a responsive and fast UI using React and Vite

Todo List

ReactJs • MongoDB • NodeJs • taskflow-sooty-eight.vercel.app/

- Developed a full-stack task management platform using the MERN stack with secure user authentication and personalised task management.

- Implemented JWT-based authentication with email/password login, password hashing using bcrypt, and Google OAuth integration.

- Built CRUD APIs for todos, sticky notes, and user data.

EDUCATION

BCA

Shri RGP Gujarati Professional Institute • Indore, India • 2025 - Current

SKILLS

Languages: JavaScript, Python, HTML, CSS

Frontend: React.js, Tailwind CSS, Context API, Responsive Design

Backend: Node.js, Express.js, Django, RESTful APIs, Authentication (JWT/OAuth)

Databases: MongoDB, Mongoose, CRUD Operations, Schema Design

DevOps & Tools: Git, GitHub, Postman, Chrome DevTools

Deployment: Vercel, Render

AI Development: Prompt Engineering, AI-Assisted Development (ChatGPT, Copilot)
